

Language and Culture Online Program

New online format!

We are excited to offer our popular Language and Culture Summer 2020 program in a **new online format!**

While developing English skills online alongside other learners from around the world, students will be able to immerse themselves virtually in elements of Canadian culture, explore aspects of intercultural communication, enjoy an elective, and have a ton of fun along the way.

**Does learning English and getting to know Canadian culture first-hand excite you?
Are you planning to attend a Canadian university in the future?**

If you answered yes to either of these questions our Language and Culture Online Program is for you!

Participating in our online Intercultural Communications Workshops, you will develop a greater appreciation for cultural differences and similarities while learning some great strategies for cross-cultural communication.

During Language Studies, you will improve your overall English proficiency with an extra emphasis on speaking and listening skills. At TRU, we know that no two students are the same, so we have developed specific electives, designed to give each student the opportunity for growth while learning English, making friends online and having fun!
