

Follow your interests and design your own curriculum !

What are you studying at your home university?

What do you wish to study at Hirosaki, Aomori, or Japan?

What is your future dream?

What do you want to learn to open your career?

Step1. Make your study plan at Hirosaki.

I want to vitalize agriculture in my home county by being a bridge between my home country and Japan in the future! For the purpose, aside from academic leaning, I'm so excited to learn about Japanese lifestyle, work style, and the way to get along with Japanese people!

My future dream is to be a engineer who is successful throughout the world! I want to deepen my study in Hirosaki, and want the knowledge to be useful for my future dream.

I'm not really good at Japanese now, but I' want to improve my Japanese skill. I'm also interested in teaching and I want to learn the way of teaching in Japan. I love playing with children, so I'm happy if I could have some opportunities to communicate with Japanese children.

I'm writing a graduation thesis about Japanese literature. In Hirosaki, I want to improve my Japanese language skill and want to pass N1! I also want to take regular classes offered by the faculties which are related to my thesis. If possible, I want an academic advisor who gives me some advise about my thesis!

Step2. Come to Hirosaki University

Orientation for exchange students
Placement Test of Japanese Language

Step3. Decide what to take.

- intermediate Japanese
- Food and Industrialization in Aomori: Cultural Anthropology of Local Food and Dietary
